STAGE ENGINEERING PFALZEN THEATER (BZ)

PROJECT DETAILS

Planning, supply, and installation of a complete, permanently installed stage system with theater winches, special acoustic reflectors, stage floor, stage extensions, and other elements. An overall acoustic concept was developed and realized in cooperation with the architect. Special acoustic reflectors and various absorbing elements were used. The control of the winches is carried out via a modern touch panel.

SCOPE OF DELIVERY

- Theater-compact winches
- Stage control on EN17206
- Acoustic reflectors and coverings
- Plaster, wood, and finishing works
- Stage substructure
- Wooden stage floor
- Stage steel structure
- Complete stage curtain with automated guiding systems
