STAGE ENGINEERING

SARNTHEIN AUTOMATED ORCHESTRA SHELL (BZ)

PROJECT DETAILS

Planning, supply, and installation of a modern automated orchestra shell for outdoor use with integrated lighting and audio system. In its closed state, with the stage roof lowered, the roof is walkable and forms a grandstand as a space extension. In its open state, the area becomes a stage with integrated lighting and gradations in the stage area. The drive is mechanical. No additional supports are required to securely hold the roof.

SCOPE OF DELIVERY

- Mechanical drive
- Stage substructure
- Stage roof structure
- Integrated lighting and audio system
- All paneling and fall prevention elements
- Stage steel structure
